Senior Brand & Motion Designer

Brand Systems • 3D + Motion • Campaign Design • AI-Accelerated Production

PROFESSIONAL SUMMARY

Senior brand and motion designer with 18+ years of experience turning complex subjects into clear, high-performing creative. As TrialSupport.us's sole designer, built a brand from scratch and earned 15K+ organic LinkedIn impressions at a 12.4% engagement rate. Led 3D and motion design for a Providence cancer-care launch that earned 1M+ views. Builds in Illustrator, After Effects, Premiere, Adobe XD and Blender, and pairs generative AI with 3D scene-building so output stays art-directed and on-brand. Works best inside multidisciplinary teams of experts pulling toward one goal.

CORE COMPETENCIES & TECHNOLOGIES

- **Brand & Campaign:** Brand identity and systems, art direction, style guides, templates and toolkits, social, email, web, print, large-format
- **Motion & 3D:** After Effects, Premiere Pro, kinetic typography, short-form and commercial spots, cinematic 3D motion, Blender (lighting, materials, camera, environments), SketchUp, medical, courtroom and community-map visualization
- **AI-Enhanced Workflows:** Adobe Firefly, ChatGPT, Gemini, Claude; generative imagery guided by 3D scenes and strong art direction
- **Digital & Analytics:** Adobe XD, WordPress, Avada Builder, HTML5/CSS3/JavaScript/React fundamentals, GA4, LinkedIn Campaign Analytics, A/B testing

PROFESSIONAL EXPERIENCE

03/2025 – Present

TrialSupport.us — Trial Graphics Specialist – Irvine, CA

- Led the visual rebrand as the company's **sole designer**, taking TrialSupport from no defined identity to a deep-navy, gem-tone system rolled out across web, social, email, brochures, decks, video, and courtroom graphics.
- Built a hybrid pipeline: realistic courtroom and office scenes in **Blender**, populated with art-directed AI characters, then composited and typeset by hand. Video built this way delivered a **52% lift in click-through** over static posts.
- Grew organic reach with a designed content system: LinkedIn earned **15,198 impressions, 1,424 clicks, and a 12.4% engagement rate**; one graphic design e-blast drove a **468% jump in active users** and **387% more page views** in its first week.
- Designed personalized, city-level merge-tag emails that produced **34 direct client inquiries** and 4.5K sessions; the 3D Clarity email earned a **29.2% open rate and 1.95% click rate, about 15× the Q3 promotional email's click rate**.
- Diagnosed a 21-second average visit from analytics, then redesigned the site's content flow with blog-link banners and related-post loops: average engagement time **doubled from 21 to 42 seconds** and organic search sessions grew **118%**.

- Partnered with the Google Ads manager on keywords and landing pages; added contact forms to every free-download page (**54 unique visitors, 74 submissions** since April 2026) and launched a UTM-tagged LinkedIn ad campaign.
 - Created courtroom demonstratives, accident recreations, and 3D visualizations with attorneys and expert witnesses; built reusable templates and toolkits.
- 10/2022 – 01/2025 NDM Communication — Senior Graphic Designer – Costa Mesa, CA**
- Led creative direction and 3D motion design for Providence's launch of California's first non-invasive histotripsy therapy, built with **Blender, After Effects, and AI voiceover**. The video earned **1M+ views** and became the campaign's cornerstone asset.
 - Delivered a fast-turnaround trade-show sizzle reel and dozens of social assets, lifting engagement **~30%**.
 - Reimagined community site plans as immersive **3D maps** (Reata Glen, Morningside) and designed patient guidebooks and publications for Torrance Memorial and MemorialCare with custom 3D illustrations.
- 02/2021 – 09/2022 Swim Digital Group — Senior Graphic Designer – Tampa, FL**
- Led creative for data-driven email, landing page, web, and paid social campaigns for higher-education clients, with scalable template systems.
 - Applied A/B testing insights to improve engagement; managed creative across five concurrent client accounts.
- 02/2019 – 02/2021 Boston Museum of Science — Senior Graphic Designer – Boston, MA**
- One of eight on the team behind the Engineering Design Workshop exhibition. Designed the laminated-paper facade pattern, reworked after an early version failed structural testing; the final passed the **350-lb load test** and exceeded the limit of the testing equipment.
 - Designed **raised, 3D-printed programming icons** so blind and low-vision visitors could program a physical hedgehog, refined over multiple rounds of user testing, plus a gender-inclusive color system that held across print, paint, plastics, and screens.
- 03/2018 – 04/2018 CSU Chancellor's Office — Graphic Designer – Long Beach, CA**
- Maintained the Chancellor's Office brand identity across guides, print ads, signage, direct mail, and web.
- 07/2017 – 02/2018 W Brand Studio — Production Artist – Newport Beach, CA**
- Executed print and web projects from concept to final art and vendor coordination.
- 03/2007 – 07/2016 Enzoani Bridal — Graphic Designer & Event Branding Specialist – Tustin, CA**
- Led creative direction for global fashion events, giving each year its own theme and identity while staying on-brand. **Event attendance doubled for seven consecutive years.**
 - Engineered collectible invitation systems, from a die-cut package of nine cards forming one red-carpet scene (2012) to a lace-pattern passport and custom pin (2013) and a physical-key Speakeasy invitation (2016).
 - Directed brand, packaging, signage, lookbooks, catalogs, email, and trade-show environments across international markets, and managed junior designers, interns, and print vendors.

EDUCATION & DEVELOPMENT

Bachelor of Arts, Art / Graphic Design — California State University, Long Beach

- President's Honor Roll (4 semesters). Work published in CMYK Magazine (2005); featured by AmericasPrinter.com.

Web Developer Course — Frontend Simplified

- HTML, CSS, and JavaScript coursework; hands-on responsive and interactive web projects.
